

Reliable Bundling Solutions for Farms, Orchards and Businesses

Plastic tying twine designed for practical agricultural and industrial use.

- Lihuan Plastic
- Manufactured by Quanzhou Lihuan Plastic Co., Ltd.
- Established in 2014

When Bundling Fails, Work Slows Down

Buyers and users may face real work problems when tying materials are inconsistent or unsuitable.

- Twine breaks during bundling.
- Width and strength vary between batches.
- Workers need more time for each bundle.
- Packaging becomes loose or untidy.
- Seasonal demand requires reliable supply.

One Product Category. Multiple Practical Applications.

Start from the buyer's application, then confirm the product and specification.

- Vegetable Bundling: chives, leafy vegetables, farm packing.
- Orchard Support: fruit tree tying, branch support, trellis use.
- Industrial Bundling: warehouse packing, hardware and business bundling.
